

Bachelor Of Engineering (Electrical-Electronics)

Bachelor of Engineering (Electrical – Electronics) is one of the undergraduate programmes that is offered by Faculty of Electrical Engineering.

Under the programme, undergraduate students can choose to major in one of the five provided disciplines, i.e.

- Microelectronic Engineering
- Electronic System Design Engineering
- Computer Engineering
- Medical Electronic Engineering
- Telecommunication Engineering

Bachelor of Engineering (Electrical – Electronics) offered by Faculty of Electrical Engineering is accredited and recognized by the Board of Engineers Malaysia (BEM). Graduates from the Bachelor of Engineering (Electrical – Electronics) may apply to register with the Board of Engineers Malaysia, as graduate engineer in the engineering field as shown in table below.
