About UTMSPACE

The School of Professional and Continuing Education, Universiti Teknologi Malaysia (UTMSPACE) was established in July 1993 with the approval from the Ministry of Education. UTMSPACE believes that education is a lifelong learning process, thus it offers quality continuing education for working adults by providing education services related to engineering, science, technology, information and business fields.

UTMSPACE envisaged that the way to gain real-world experience is by improving individual education with on-the-job experience. In fact, UTMSPACE had move forward as a one-stop centre offering programmes on behalf of the university to working adults as part of its democratization exercise to offer higher education opportunities to working adults. In other words, UTMSPACE holds to our tag-line **Shaping Minds, Building Careers.**

Through the variety of programs offered by UTMSPACE, working adults are able to achieve their career goals, upgrade their knowledge and skills, and obtain credible qualifications. English Language Programmes are also offered to working adults and international students to enhance their language skills in communication and writing. In addition, the programs offered in UTMSPACE are quality assured as they have received numerous accreditations by established professional bodies.

The courses offered serve to meet the current needs, and demands of the global market that meet the organisational directives. Moreover, UTMSPACE programs prepare adult learners with vast knowledge in science, technology and management fields, and professional skills to attain a rewarding career. As a matter of fact, UTMSPACE helps mould working adults to be highly valued in the workplace not only to meet the expectation of the employers but also to achieve the nation's aspiration to become a fully industrialised country.
